GITHUB | LINKEDIN | PORTFOLIO

SUMMARY

Dynamic and detailed-oriented web developer with a knack for conceptualizing and delivering elegant, user-friendly solutions in an effective and efficient manner. Started out building websites for clients using the Wix platform which sparked a passion for web development and accelerated my interest for learning more advanced coding skills.

SKILLS

Languages: Javascript ES6, HTML5, CSS3

Libraries & Frameworks: jQuery, React, React Hooks, Redux, Node.js,

Other Technologies: Node Package Manager (NPM), Webpack, Babel, RESTful APIs, AJAX, JSON, PostgreSQL, Express, Git, GitHub

RECENT PROJECTS

Solar System Quiz | Github

- Designed and built an application to inspire kids to learn more about space by learning interesting facts about planets in the Solar System.

- HTML5, CSS3, Javascript ES6

Daily Workbook | GitHub

- Developed an application to help users find definitions, synonyms, antonyms and examples of sentences for a given word.

- HTML5, CSS3, Javascript, jQuery
